Why ORAU

ORAU embraces and advances your mission by providing:

Integrated scientific and technical expertise backed by specialized resources

75+ years of experience in recruiting scientific and technical talent.

Consortium of 150+ major research universities

What We Offer

Scientific Services

- Technical and programmatic expertise supporting basic and applied research efforts in the physical, life, health, environmental, and social sciences augmented by 150+ ORAU consortium member universities.
- Strong educational and operational proficiency designing and implementing STEM development programs for K-20 teachers and learners, as well as post-graduate research programs.

Program Management Services

- Specialized recruiting expertise for sourcing hard-to-fill STEM research talent for on-site or client-site efforts.
- Professional client-site management and operation of major scientific and technical program efforts.
- Proven program evaluation services to effectively measure and assess program impact.
- Independent scientific peer-review capabilities to inform federal research investments.

Engineering Services

- Robust expertise in environmental consulting and remediation, and worker health and safety
- Leading provider of characterization, final status, and independent verification surveys of environmental cleanup
- Extensive real-world operational experience supporting national and global preparedness programs and responses
