Network of personnel from the DOE community involved in sharing industrial hygiene/occupational safety information

- 400+ Members as of May 2019
- Sponsored by the DOE Office of Worker Safety and Health Policy (AU-11) through ORNL
- Managed by the Oak Ridge Associated Universities
This initiative is important because of the quality of information shared with IH/OS professionals within the DOE Community through the SIG using:

- DOE TSL Listserv email tool
- Meetings such as the IH/OS SIG Steering Committee conference calls & the annual DOE and DOE Industrial Hygiene Contractors meeting
- IH/OS SIG Website (https://orau.org/ihos/index.html)
A resource to industrial hygiene/occupational safety professionals within the DOE community
