in STEM
activities?
LET'S TALK...

What We Offer

Educators

Our hands-on programs give teachers opportunities to test new techniques and keep up with technological innovations. The goal—to help them motivate and inspire tomorrow's STEM leaders.

Students

Our K-12 activities offer students a way to participate in authentic, hands-on experiences designed to engage young minds in STEM subjects and challenge them beyond the classroom environment.

Partners

The future of STEM is in our hands. With the support of our community partners, our goal is to continue encouraging students and educators to make a lifelong commitment to STEM.

Why ORAU

The ORAU Center for Science Education provides a number of free hands-on STEM programs for students to engage in learning and for the educators who inspire them. ORAU places a high value on equipping elementary, middle and high school teachers with tools and experiences to enhance their classroom instruction.

"The ability to be a part of cutting-edge scientific research was the opportunity of a lifetime. I would highly recommend this program to anyone interested in STEM in the future."

*-Joint Science and Technology Institute
Student Participant*

"This was one of the best professional development experiences I've ever had. There was a surprise around every corner. I can't believe how much I learned in these two weeks."

*-Appalachian Regional Commission/ Oak Ridge
National Laboratory Institute Teacher Participant*
