

Need support for COVID-19? **WE CAN DO THAT.**

ORAU is a non-profit 501(c)(3) supporting core competencies in public health, emergency management and health communications.

ORAU has worked with Department of Health and Human Services operating and staff divisions that are instrumental in preparing for and responding to public health emergencies, including a pandemic, since 2003

We:

- Work with and understand the dynamics of large, medium-sized, rural and frontier communities.
- Collaborate to engage local communities on the whole-community approach and engage key stakeholders, community members, businesses and federal stakeholders.
- Develop tools for
 - communities to assess their readiness and prepare for a public health emergency
 - state and local health officials to use during public health emergencies
 - specific populations and sectors (vulnerable populations, long-term care and pediatrics).
- Design, execute and evaluate health education, communication and marketing campaigns.
- Craft, test and evaluate messages, signage and other communication tools targeting the public, schools, businesses, healthcare providers, immigrant and refugee populations and persons entering the U.S.

Preparing for a Pandemic

Exercises

- Community and sector engagement
- Tabletop exercises
