

## Exercise Builder Nuclear™ — improving the way the nuclear power industry manages emergency drills and exercises.

Exercise Builder Nuclear™ is an online platform and app used by emergency preparedness managers in the nuclear power industry to manage the many drills and exercises required by the Nuclear Regulatory Commission to prepare plants to meet any type of threat.

Emergency preparedness managers in the nuclear power industry are challenged with increasing scrutiny and regulations requiring more comprehensive drills and exercises. Exercise Builder Nuclear™ helps meet these challenges with powerful drill and exercise management tools and the convenience of an online platform and app that can store all current and historical exercise and drill data in one place.

### You Can...

- Improve consistency and standardization of approach
- Build drills and exercises quickly from a repository of data
- Web-based or app access allows collaboration with peers and distribution of duties
- Access drill and exercise data from a computer or mobile device
- Generate documents, such as controller guidelines and drill reports in seconds
- Record evaluations of objectives to track performance improvement
- Track data over time, such as EAL usage or individual employee participation

### Key Features:

Exercise Builder Nuclear™ offers a number of key advantages to build and manage drills and exercises efficiently:

- Manage all drills and exercises in one location
- Generate drill packages, drill reports and other documents
- Track your progress in the Eight-Year Cycle
- Track Performance Indicator metrics
- Support your narrative and message with images and photos
- Build an extensive library of reusable data
- Enable planning team collaboration and trade ideas with other utilities

### Technical Specs

ORAU provides appropriate physical and cyber security, adequate data back-up and recovery, appropriate equipment redundancy and appropriate monitoring and contingency plans. ORAU holds and maintains an Authority to Operate under the U.S. Department of Energy standards.

## Who We Are

Scientific and technical contractor

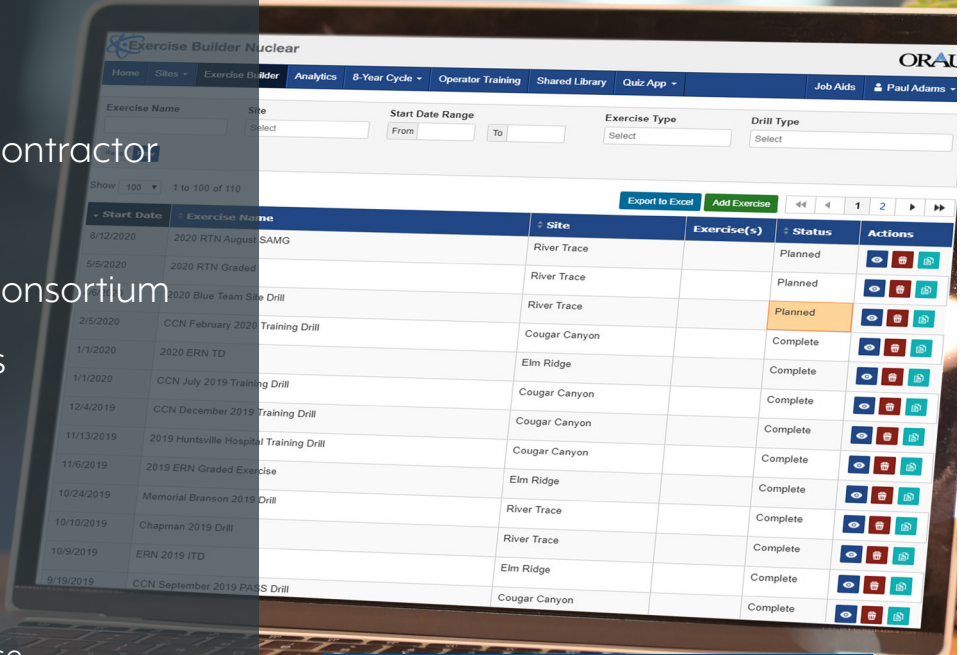

75 years of experience

150+ member university consortium

501(c)(3) nonprofit status

Specialized expertise:

- Workforce Development & Technical Staffing
- Scientific Assessment
- Health & Environment
- Preparedness & Response
- Research & University Partnerships

## Ways to Work With Us

### GSA Contracts

- Professional Services - <http://orau.us/gsaschedule>
- Human Resources Services - <http://orau.us/hrgsaschedule>
- One Acquisition Solution for Integrated Services (OASIS) - <http://orau.us/oasis>

### Strategic Partnerships

Project agreements under Oak Ridge Institute for Science and Education contract with the U.S. Department of Energy

### Agency-Specific Contracts
