

PeerNet™ — ORAU's Proposal Evaluation Management System

With PeerNet, users can trust that their review is...

- Secure
- Confidential
- Customizable
- Flexible with real-time Reporting
- Accessible
- Mobile optimized
- Intuitive
- Section 508 compliant
- Actively capturing conflicts of interest
- Sustained with the latest technical enhancements

PeerNet serves as a leading online peer review management tool, utilized for more than 1,100 evaluation and reviews.

In a world of high-speed, data-driven results, a streamlined peer review process is critical in ensuring that the highest quality proposals are funded.

Key Features:

PeerNet is specifically designed to facilitate effective peer reviews by using ORAU's proprietary and easy-to-navigate online portal. Short for Proposal Evaluation and Electronic Review Network, PeerNet is a structured system where:

Review scores and comments from multiple subject matter experts are entered

Common criteria and scoring methods allow for apples-to-apples comparisons

Data is delivered quickly to inform decision making

New Features:

PeerNet is continuously updated with new features designed to improve peer review efficiency.

- **Proposal Collection** – This feature will allow program leads to customize proposal submission criteria and seamlessly, electronically collect submitted proposals and associated documents from principal investigators.
- **Reviewer Portal** – This feature will allow reviewers and peer review support staff to securely exchange documents and information.
- **Contributor Assistance** – This feature will allow principal investigators to identify, assign, and grant permissions to individuals providing assistance in the proposal writing process.
