

Lisa Greenwood, Ph.D.
Assistant Professor
Civil Engineering Technology, Environmental
Management and Safety
College of Engineering Technology
Rochester Institute of Technology

Dr. Lisa Greenwood is an assistant professor in Environmental Sustainability, Health and Safety at Rochester Institute of Technology (RIT), with over 25 years of experience in environmental and occupational health and safety management. Her teaching and research interests include environmental, health and safety (EHS) management system design, implementation and integration, integrating standards in the curriculum, environmental sustainability, corporate social responsibility, and related private governance mechanisms. Prior to joining the faculty at RIT, Dr. Greenwood worked as an environmental engineer, EHS audit program manager, and international standards specialist in the aerospace sector. She holds a B.S. in Environmental Management from RIT, an M.S. in Environmental Engineering from the University of New Haven, and Ph.D. in Environmental and Natural Resource Policy from the SUNY College of Environmental Science and Forestry, in association with Syracuse University. Dr. Greenwood has been active in standards development for over 20 years. She is a long-standing member of the U.S. Technical Advisory Group (TAG) to ISO Technical Committee 207 on Environmental Management, and participated on the U.S. TAG on Social Responsibility during the development of the ISO 26000 standard. Greenwood is Chair of the TAG 207 subcommittee on environmental management systems, and represents the American National Standards Institute internationally as a U.S. expert in this field. She was the lead expert for the U.S. in the 2015/2016 revisions of ISO 14001 and 14004.
